A INTRODUCTION

Labour market policy (LMP) statistics provide information on *labour market interventions*[1], which are government actions to help and support the unemployed and other disadvantaged groups in the transition from unemployment or inactivity to work. Except where otherwise specified, all data shown in this publication are derived from Eurostat's LMP database[2].

The scope of LMP statistics is limited to interventions that are explicitly targeted at groups of persons with difficulties in the labour market. The primary target groups in most countries are those people who are registered as unemployed by national Public Employment Services (PES) or who are currently employed but at risk of involuntary job loss due to difficult economic circumstances for their employer – a situation that is particularly relevant in the current recovery from the economic crisis. However, policy objectives at European and national levels are increasingly focused not only on these groups but on a wider range of people that face disadvantages and barriers that may prevent them from joining or rejoining the labour force – for example, women re-entering work after a family break, young people looking for their first job, older workers and disabled workers. Therefore, people currently considered as inactive but who would like to enter the labour market are also treated as an important LMP target group.

Each country has a different approach to LMP and implements interventions that are customised to the situation of the national labour market and the different groups of people that are struggling to find work. Information on national interventions is collected annually from administrative sources in each country and is then categorised according to the Eurostat LMP methodology[3] in order to ensure that the information on LMP interventions undertaken across Europe is presented in a way that is as consistent and comparable as possible between types of interventions and countries and through time.

LMP interventions are classified by type of action into three broad types – services, measures and supports – and into 9 detailed categories.

LMP services cover all services and activities of the Public Employment Services (PES) together with any other publicly funded services for jobseekers. Services include the provision of information and guidance about jobs, training and other opportunities that are available and advice on how to get a job (e.g. assistance with preparing CVs, interview techniques, etc.).

1. Labour market services

LMP measures cover interventions that aim to provide people with new skills or experience of work in order to improve their employability or that encourage employers to create new jobs and take on unemployed people and other target groups. Measures include various forms of intervention that "activate" the unemployed and other groups by obliging them to participate in some form of activity in addition to basic job search, with the aim of improving their chances of finding regular employment afterwards. They are mostly short-term and temporary actions but ongoing support for jobs that would otherwise not be sustained in the regular labour market is also covered.

2. Training
3. Job rotation and job sharing
4. Employment incentives
5. Supported employment and rehabilitation
6. Direct job creation
7. Start-up incentives

LMP supports cover financial assistance that aims to compensate individuals for loss of wage or salary and to support them during job-search (i.e. mostly unemployment benefits) or which facilitates early retirement.

8. Out-of-work income maintenance and support
9. Early retirement

LMP statistics include information on the expenditure and participants of each intervention:

- *Expenditure*: Data on expenditure cover the direct costs of each LMP intervention – public expenditure that may include cash payments transferred either directly (benefits for individuals or subsidies to employers) or as reimbursements for costs incurred; the value of directly provided goods and services (e.g. the cost of training courses); or the value of revenue foregone through reductions in obligatory levies (e.g. temporary exemption to social security contributions for employers taking on an unemployed person). Any other indirect costs are considered as part of the administration costs of an intervention and are covered only in sub-category 1.2 Other activities of the PES (Public Employment Services).

- *Participants*: Various observations of participants in LMP interventions are collected. Stock data (annual average) refer to the average number of persons participating in an intervention at a given moment during the year and are usually calculated from the administrative data as an average of the stock at the end of each month. The annual average stock can also be interpreted as the number of person-years of participation in an intervention. Flow data describe the number of people joining (entrants) or leaving an intervention (exits) during the year. Each new start or ending spell of participation is counted so that the same individual may be counted more than once.

LMP indicators and the European Employment Strategy (EES)[5]

LMP statistics are one of the data sources for monitoring the Employment Guidelines (part II of the Europe 2020 Integrated Guidelines). The guidelines specifically refer to the provision of active labour market policies, which cover LMP measures and LMP services, and adequate social security systems, which include LMP supports.

Six EES indicators are based on LMP data and are included in this publication:

Activation/Support (see Tables C.3.1 - C.3.3): Number of participants in regular activation measures (LMP categories 2-7) /in assisted activation programmes (LMP sub-category 1.1.2) /number of recipients of supports (LMP categories 8-9) divided by the number of persons wanting to work (ILO unemployed plus labour reserve).

Activation of registered unemployed (see Tables C.3.4 - C.3.6): Stock of participants in regular activation measures (LMP categories 2-7) that were previously registered unemployed divided by the stock of registered unemployed plus the stock of participants in regular activation measures that were previously registered unemployed and whose unemployment spell is broken by participation in a regular activation measure.

Activation of long-term registered unemployed (see Tables C.3.7 - C.3.9): Stock of participants in regular activation measures (LMP categories 2-7) that were previously long-term registered unemployed divided by the stock of long-term registered unemployed plus the stock of participants in regular activation measures that were previously long-term registered unemployed and whose unemployment spell is broken by participation in a regular activation measure. Long-term unemployed = 12+ months for adults (25+) and 6+ months for youth (<25).

Timely activation (see Tables C.3.10 - C.3.12): The proportion of entrants in regular activation measures (LMP categories 2-7) or assisted activation programmes (LMP sub-category 1.1.2) taken up by persons not yet long-term unemployed (Target value 100% = full compliance)
Method: (A-B)/A %
A = Total entrants
B = Long-term unemployed entrants (12+ months for adults 25+ and 6+ months for youth<25)

LMP expenditure (see Table B.1.3): LMP expenditure as % of GDP

LMP expenditure per person wanting to work (see Table B.1.4): Expenditure on LMP divided by the number of persons wanting to work (ILO unemployed plus labour reserve)

Coherence with the OECD LMP database

In 2004, the OECD adopted Eurostat's methodology (classifications and guidelines) by means of an official communication addressed to all OECD member countries. Since then, data on LMP expenditure and participants published by the OECD in "Employment Outlook" for the EU countries and Norway have been collected and carefully validated annually by Eurostat before being sent, together with all related metadata, to the OECD.

The only divergence between the two databases is in category 1 (Labour market services), where OECD prefers to maintain a different coverage and has, for some countries, either supplemented or excluded parts of the Eurostat data. Eurostat's definition of category 1 "Labour market services" is designed to collect the total expenditure of the Public Employment Services (PES) and to then disaggregate this figure to identify "client services" and particularly "individual case-management" services, which are highly relevant to the activation/prevention approach of the European Employment Strategy. Eurostat's approach means that the costs of benefit administration are not included when this function is undertaken by organisations other than the PES. OECD, on the other hand, attempts to include benefit administration for all countries, irrespective of the organisation responsible. Moreover, for some countries, it also excludes PES expenditure on functions considered to be outside the scope of LMP.

A.1 Important remarks

1. Source of data

Unless otherwise specified, all data presented in this publication were extracted from the Eurostat LMP database[2] on the 6th June 2011.

2. LMP Methodology

The LMP data collection has a comprehensive methodology which defines the scope of the data collection, the statistical unit and coverage, describes the classification system and gives precise guidelines on the data to be provided. Users of LMP data are recommended to refer to this methodology in order to facilitate interpretation of the data included in this publication. The methodology is available at the Eurostat website[3].

3. Labour market policy statistics – qualitative reports

In addition to the quantitative data on expenditure and participants presented here, the LMP database includes valuable qualitative information describing each intervention, how it works, the main target groups, etc. These descriptions help to put the quantitative data into context and can be extremely useful for researchers. These qualitative data are compiled into a series of "Labour market policy statistics: Qualitative Reports" and produced as separate volumes for each country/year[3].

4. Coverage

It is intended that data in this publication cover all LMP interventions in each country including those of autonomous regions, which may be significant.

Germany: In Germany, the Länder carry out some important LMP activities independently of the federal actions but data are not available to report on these in any detail. However, many of the activities of the Länder are are supported by the ESF (European Social Fund) and the LMP data for 2000-2006 include a single entry (DE-84) covering this expenditure and the related participants. Unfortunately changes to reporting procedures for the 2007-2013 ESF funding period mean that the data on ESF expenditure relevant to LMP in Germany is no longer available. The data for Germany for 2007, 2008 and 2009 are therefore missing the expenditure and participants related to LMP activities of the Länder. In 2006 the ESF support for these actions accounted for 7.4% of the expenditure on LMP measures (categories 2-7) in Germany and 29.6% of the participants.

Spain: Data for some interventions do not cover all autonomous regions. Additionally, data do not include the activities of the municipalities, which are included in the OECD data. It is intended that this information will be included in Eurostat data in future.

United Kingdom: In the United Kingdom, expenditure on the main New Deal programmes (UK-1 and UK-2) is recorded together under generalised categories and a breakdown of expenditure between the different components is not available. The LMP data require a breakdown by type of action so estimates have been made by Eurostat based on information available from previous years and numbers of participants. Similar estimates have been applied to the Northern Ireland employment programmes (UK-53). So whilst the total expenditure on LMP is correct, the breakdown between LMP services (category 1) and LMP measures (categories 2-7) and also the breakdown within categories 2-7 may not be reliable.

5. Aggregates of expenditure and participants

Aggregates of expenditure data are only shown when values are available (or known to be not significant) for all constituent items.

However, participant data are generally less complete and to increase the number of participant aggregates that can be disseminated, the value of a participant aggregate is shown provided that constituent data are complete for at least 80% of the associated expenditure (completion indicator >=80%). All aggregates of participants based on incomplete data are flagged as "u" to alert users that the data are not fully reliable (i.e. may be understated by up to 20%) and this flag always takes precedence over any other flag that might be applicable.

6. EU totals

EU-27 totals are completed only when data are available for all countries or when Cyprus, Luxembourg and Malta are the only countries with incomplete data. If data for a country is missing for one year then EU totals may be completed using data from the previous year for that country.

The following aggregations should not be made for methodological reasons:
- Participants in category 8 should never be added to those in categories 2-7.
- Participants in category 1 should never be added with any other category.

Double counting may occur legitimately when a person participates in more than one intervention at the same time or is counted in two components of a mixed intervention – for example when training allowances are paid independently from the provision of training services. All known cases of double counting are taken into account by appropriate adjustments, which are shown in the detailed tables of participant data (section C.4).

7. Flags

LMP data are flagged at the intervention level. The following flags may be applied:

b	Break in series
e	Estimated data
n	Not significant
p	Provisional data

When data are aggregated (e.g. to category totals or to EU aggregates), the various constituents of the aggregate may have different flags but only one can be applied to the final value. The following rules are applied to determine the flag (if any) to be applied to aggregates. Firstly, the flag most applicable to an

aggregate is considered to be the one that applies (at detailed level) to the highest share of the aggregate value. Secondly, a flag is only applied to an aggregate if it affects more than 10% of the total value.

8. Intervention names

The names of all LMP interventions are shown here in English only. However, for research purposes it may also be helpful to know the name of the intervention in the national language. An inventory of intervention names in both English and national language is included in the LMP Qualitative Reports which are published separately for each country (see point 3 above).

9. LMP expenditure at constant price levels

The price index for household and NPISH (non-profit institutions serving households) final consumption (2000=100) was used as deflator (see table D.1.2, source: National Accounts).

10. Persons wanting to work

Persons wanting to work are defined as the unemployed plus the labour reserve. The unemployed according to the ILO definition are persons without work, currently available for work and actively seeking work. The labour reserve covers inactive persons who want to work but are either not actively seeking work or are not immediately available for work, i.e. it is a subset of all inactive persons (persons neither employed nor unemployed). Data are taken from the EU Labour Force Survey (EU LFS)[4].

1 Labour market interventions are defined as: *Public interventions in the labour market aimed at reaching its efficient functioning and correcting disequilibria and which can be distinguished from other general employment policy interventions in that they act selectively to favour particular groups in the labour market. Public interventions refer to actions taken by general government in this respect which involve expenditure, either in the form of actual disbursements or of foregone revenue (reductions in taxes, social contributions or other charges normally payable).*

Source Eurostat (online data code: lmp_expme_be)

1 Expenditure of BE-78 is included in BE-1.

2 Includes ESF contribution.

3 Beneficiaries of this regional training programme continue to receive unemployment benefits which are reported under BE-43 (category 2).

4 Expenditure of BE-129 and BE-130 are included under BE-42.

5 These are unemployment benefits paid to beneficiaries of regional training programmes (BE-40, 41, 42 and 44).

6 Intervention not applied in 2009.

7 Data refer to 2008.

8 Scheme abolished since July 2004, but unemployment benefits are paid to employees who started to work before that date (and until the end of their employment contract).

9 This intervention is being replaced by the Service vouchers (BE-126).

Source Eurostat (online data code: lmp_expme_cz)

1 Expenditure covers only the costs of subcontracted services. Related staff costs are covered in CZ-1.

2 Participants receive increased unemployment benefits which are recorded in category 8 (CZ-3). Expenditure includes costs of training some persons not registered unemployed and not counted amongst participants (amounts are considered to be negligible).

3 Intervention coming to an end.

4 Includes benefits paid to persons in retraining (CZ-2).

Key : Not available; :n Not significant; - Not applicable or real zero or zero by default; 0 or 0.00 Less than half of the unit used; e Estimated value; p Provisional data; b Break in series

Source Eurostat (online data code: lmp_expme_de)

1 Expenditure of DE-64 and DE-67 (category 1.1.2) are included in DE-63.

2 Incomplete data. Only data of specialised integration services. No data of the additional programmes. Without data of Saarland.

3 Expenditure is the responsibility of municipalities and data are not available.

4 Includes ESF contribution.

5 Costs of training courses only. Participants may at the same time receive benefits recorded in category 8.

6 No separation possible between short-time working allowance caused by conjuncture and structural short-time working allowance.

7 The breakdown by the different types of expenditure is not available so it is all classified as transfers to service providers.

8 Excludes data of the municipalities.

9 Intervention coming to an end.

Source Eurostat (online data code: lmp_expme_ie)

1 Data refer to 2008.

2 Covers both FÁS and LES funded Jobs Clubs.

3 Includes ESF contribution.

4 Some participants may continue to receive unemployment benefits: these are not reported here but under category 8.

5 Total expenditure on Back to Work Allowances (Employees and Enterprise) is shown under IE-4.

6 Expenditure for IE-64 (Systematic short-time) is included under IE-1 (Unemployment benefit).

Source Eurostat (online data code: lmp_expme_es)

1 Data on the Autonomous Communities may be underestimated as data is not always available for all regions.

2 Some beneficiaries continue to receive unemployment benefits: the corresponding amount is reported in ES-5 (cat 8).

3 Includes ESF contribution.

4 ES-18 includes expenditure of ES-19.

5 ES-42 includes expenditure of ES-52.

6 ES-21 includes expenditure of ES-24 and ES-45.

7 Data refer to 2008.

8 Includes unemployment benefits received by participants in ES-8 and ES-35.

9 Data on the Autonomous Communities are not available but they are estimated to represent a small share of the total in each LMP category.

Source Eurostat (online data code: lmp_expme_fr)

1 Data refer to 2008.
2 Includes ESF contribution.
3 Expenditure is already counted under FR-94 to FR-96.
4 The strong increase between 2008 and 2009 is due to the fact that this intervention was used in the context of the Economic Recovery Plan.
5 Intervention coming to an end.
6 This intervention now regroups the Accelerated search process (old FR-93 - PPAE 1) and the Active search process (PPAE 2).
7 Expenditure increased significantly in 2009 as it was applied in more local areas (25 instead of 7) in the context of the Economic Recovery Plan.
8 Pôle Emploi was created in December 2008. It's the result of the merging of ANPE and UNEDIC.
9 Since the creation of Pôle Emploi, UNEDIC is no longer in charge of the management of the unemployment insurance.
10 Training allowances paid to participants in other training programmes (FR-64, FR-70, FR-71, as well as FR-10, FR-11 and FR-85).
11 New intervention implemented in 2009.
12 The decrease in expenditure is due to the decentralisation. Part of the expenditure is now included in FR-85.
13 Part of the programme (on illiteracy) is coming to an end and has been replaced since 2009 by the "Key competences" programme (FR-104).
14 The strong increase between 2008 and 2009 is due to the fact that this intervention was used (together with FR-4) in the context of the Economic Recovery Plan.
15 Intervention coming to an end (replaced by FR-81).
16 A small share (1.2%) of expenditure reported in FR-3 is in fact paid to unemployed people creating their own business (FR-38).
17 Expenditure increased significantly in 2009 as the intervention was used in the context of the Economic Recovery Plan. Data now also include the new APLD allowance (partial activity of long duration).

1 Includes ESF contribution.

2 Intervention coming to an end.

3 Periodic cash payments to individuals paid to participants in intervention IT-8 are counted under interventions IT-80 and IT-81.

4 Mixed measure in categories 4 and 7. The breakdown by component is not known so all expenditure and participants have been allocated to category 4, which is assumed to be the most important component.

5 Expenditure on ordinary unemployment benefits (IT-71) include those paid to persons working in the construction sector (IT-78).

6 Includes social contributions credited on behalf of beneficiaries.

1 Costs of the Individualised Approach cannot be separately identified and are included in the administration costs.

2 Includes ESF contribution.

3 Expenditure is reported on a cash basis.

4 Expenditure reported as transfers to employers refers to payments made for participations before the revision and reapproval of the intervention (31/3/2009).

5 Excludes continued public assistance allowance paid to participants as a wage supplement, these amounts are included as part of CY-12. During 2009 no training programmes were implemented.

6 Includes ESF contribution.

7 Intervention coming to an end.

8 The intervention was first applied in October 2009 and amounts were paid in 2010.

9 Expenditure reported on a cash basis for completed training programmes.

10 Breakdown of total expenditure estimated based on 2008 data.

11 Intervention not applied in 2009.

Source Eurostat (online data code: lmp_expme_pt)

1 Includes ESF contribution.

2 Data is not comparable with previous years because data from the IGFSE includes participants which not included before Includes ESF contribution.

3 Components of theoretical-practical training (cat. 2.3) and socio-professional integration (cat. 4.1.1) not applied.

4 Intervention not applied in 2009.

5 Mixed intervention (categories 4 and 7). A breakdown of participants by component is not possible so all are allocated to category 4, which is the most important.

6 Data includes expenditure concerning 6772 beneficiaries not covered by the participant data.

7 Expenditure is incomplete - participants continue to receive unemployment benefits that are still recorded in PT-75 in category 8 and amounts reported here refer only to additional complementary benefits.

Source Eurostat (online data code: lmp_expme_fi)

1 Expenditure includes reimbursement of travel and moving costs incurred by participants plus a share of the PES operational costs based on monitoring of staff time-use.

2 Share of operational costs of the PES based on monitoring of staff time-use.

3 Expenditure includes the costs paid to service providers for different rehabilitation activities plus a share of the PES operational costs based on monitoring o staff time-use.

4 Expenditure includes a share of the PES operational costs based on monitoring of staff time-use plus real transfers to service providers.

5 Includes ESF contribution.

6 Expenditure includes only subsidies paid by the Ministry of Employment and the Economy to facilitate the recruitment of unemployed persons as apprentices.

7 Expenditure refers to persons on leave and includes both income support (80/70% of unemployment benefit entitlement) and training supplements where appropriate.

8 Data represent an estimate of public funding for sheltered workshops. Income from business activity, which accounts for more than half of revenue, is excluded.

9 Expenditure includes rehabilitation allowances and the costs of different rehabilitation activities.

10 Passive (income support) payments only. Labour market support payments made to persons in active measures are shown under the appropriate measure. However, LMS paid to disabled persons participating to FI-22 are included here and not in category 1.

11 Net public expenditure (disbursements minus repayments to the state).

Source Eurostat (online data code: lmp_expme_se)

1 The allocation of expenditure to components is partly based on estimates.

2 Expenditure refers only to the activity support paid to participants plus a small amount of travel expenses

3 Expenditure includes some payments for travelling to interviews, which are normally considered under category 1.

4 Cost of individual service included in expenditure of SE-20.

5 Includes credited social contributions.

Source Eurostat (online data code: lmp_partme_be)

1 All participants are double-counted with measures BE-40 to BE-42 and BE-44 (see BE-83).

2 Intervention not applied in 2009.

3 Stock: end-year figure.

4 Scheme abolished since July 2004, but unemployment benefits are paid to employees who started to work before that date (and until the end of their employment contract).

5 This intervention is being replaced by the Service vouchers (BE-126).

6 Data refer to 2008.

Source Eurostat (online data code: lmp_partme_dk)

1 The breakdown of recipients by type of benefit (full-time, part-time, partial) is not known so all recipients are shown as receiving full-time benefits, which are the most important.

2 Data cover only recipients of early retirement pay coming directly from unemployment, which corresponds to around 40% of all recipients.

Source Eurostat (online data code: lmp_partme_es)

1 Data on the Autonomous Communities may be underestimated as data is not always available for all regions.

2 Participants who continue to receive unemployment benefits are reported in ES-5 (cat 8).

3 ES-18 includes participants of ES-19.

4 ES-42 includes participants of ES-52.

5 ES-21 includes participants of ES-24 and ES-45.

6 Data refer to 2008.

7 Includes participants of ES-8 and ES-35 who continue to receive unemployment benefits.

8 Data on the Autonomous Communities are not available but they are estimated to represent a small share of the total in each LMP category.

Source Eurostat (online data code: lmp_partme_fr)

1 Participants are already counted under FR-94 to FR-96.
2 The strong increase between 2008 and 2009 is due to the fact that this intervention was used in the context of the Economic Recovery Plan.
3 Stock: end-year figure.
4 Intervention coming to an end.
5 This intervention now regroups the Accelerated search process (old FR-93 - PPAE 1) and the Active search process (PPAE 2).
6 Participants increased significantly in 2009 as it was applied in more local areas (25 instead of 7) in the context of the Economic Recovery Plan.
7 Stock: average of two year-end figures.
8 Participant data for FR-53 to FR-56 and FR-86 are already included under new interventions FR-93 to FR-96.
9 Beneficiaries of training allowances are already counted in interventions FR-10, FR-11 and FR-85.
10 Beneficiaries of training allowances are already counted in other training interventions (FR-64, FR-70, FR-71, FR-10, FR-11, FR-85).
11 All beneficiaries would be double-counted with participants in other training measures (FR-70, FR-71).
12 Participants are double counted with FR-63.
13 Part of the programme (on illiteracy) is coming to an end and has been replaced since 2009 by the "Key competences" programme (FR-104).
14 Figures for participants under the age of 25 refer to those under the age of 26.
15 The strong increase between 2008 and 2009 is due to the fact that this intervention was used (together with FR-4) in the context of the Economic Recovery Plan.
16 Data cover only apprenticeship contracts concluded with low-qualified youth (68.4% of all contracts) in respect of whom employers receive recruitment incentives.
17 Participants in FR-18, 63, 64, 105, 106 and 107 are already included in other training interventions.
18 Intervention coming to an end (replaced by FR-81).
19 Stock: other one-off observation.
20 Participants are already counted in FR-38 (ACCRE).
21 The strong increase between 2008 and 2009 is due to the fact this intervention was used in the context of the Economic Recovery Plan.

Source Eurostat (online data code: lmp_partme_nl)

1 Stock: end-year figure.

2 NL-64 includes participants of NL-60.

3 Intake for the VLW ended in 2003 so that the 4-year subsidy for entrants up to that time ended in 2006 and there are no longer any participants for this component.

4 Participants receiving unemployment insurance/assistance in NL-31 and 33 that are already counted in NL-52 and 64.

5 Intervention coming to an end.

6 Participants already reported under NL-31.

Source Eurostat (online data code: lmp_partme_pt)

1 Excludes data for Azores and Madeira.

2 IGFSE data on entrants are entrants in the year (not beneficiaries, as it was before). Stock data and unemployment by duration do not include data from IGFSE.

3 IGFSE data on entrants are entrants in the year (not beneficiaries, as it was before) and include a lot of participants not included before.
Stock does not include data from IGFSE.

4 Entrants: total beneficiaries (new starts plus end-year stock).

5 Components of theoretical-practical training (cat. 2.3) and socio-professional integration (cat. 4.1.1) not applied.

6 Intervention not applied in 2009.

7 Mixed intervention (categories 4 and 7). A breakdown of participants by component is not possible so all are allocated to category 4, which is the most important.

8 A small number of participants cannot be accurately allocated between interventions PT-29, 31 and 37. Participants by intervention may therefore be slightly under or over-stated but the total for the three is correct.

9 Data does not include 6772 beneficiaries (total participants: new starts plus end-year stock) for which a breakdown is not available.

10 Data on exits are provisional for 3 years because participation can be suspended for 3 years.

Source Eurostat (online data code: lmp_partme_ro)

1 Participants are the same persons as reported for Labour mediation (RO-6).

2 Adjustment for double-counting (of entrants) between interventions 3 and 6. In order to benefit from counselling services (RO-3), participants must first register with ANOFM (new registrations counted in RO-6).

3 Intervention coming to an end.

4 Intervention not applied in 2009.

5 Entrant data represents total participant events for December 2009. Total participants is not available without double counting.

6 Adjustment for double counting between participants receiving unemployment indemnity (RO-2) and those receiving income completion (RO-22).

Source Eurostat (online data code: lmp_partme_fi)

1 Entrants: total beneficiaries (new starts plus end-year stock).

2 Entrants: total number of activities financed by the Employment and Economy Administration. A person in rehabilitation usually benefits from various activities during rehabilitation (examinations, ability testing, job trials, etc).

3 Entrants include the Individual action plans which have been made during the year.

4 Entrants correspond to the integration plans which have been made during the year.

5 Stock: end-year figure.

E.2 Classification by type of action

Category	Name
1	**Labour market services**
1.1	Client services
1.1.1	Information services
1.1.2	Individual case-management
1.2	Other activities of the PES
1.2.1	Administration of LMP measures
1.2.2	Administration of LMP supports
1.2.3	Others services / activities
1.A	Adjustment for double counting, category 1
2	**Training**
2.1	Institutional training
2.2	Workplace training
2.3	Alternate training
2.4	Special support for apprenticeship
2.A	Adjustment for double counting, category 2
3	**Job rotation and job sharing**
3.1	Job rotation
3.2	Job sharing
3.A	Adjustment for double counting, category 3
4	**Employment incentives**
4.1	Recruitment incentives
4.1.1	Permanent
4.1.2	Temporary
4.2	Employment maintenance incentives
4.A	Adjustment for double counting, category 4
5	**Supported employment and rehabilitation**
5.1	Supported employment
5.2	Rehabilitation
5.A	Adjustment for double counting, category 5
6	**Direct job creation**
6.A	Adjustment for double counting, category 6
7	**Start-up incentives**
7.A	Adjustment for double counting, category 7
8	**Out-of-work income maintenance and support**
8.1	Full unemployment benefits
8.1.1	Unemployment insurance
8.1.2	Unemployment assistance
8.2	Partial unemployment benefits
8.3	Part-time unemployment benefits
8.4	Redundancy compensation
8.5	Bankruptcy compensation
8.A	Adjustment for double counting, category 8
9	**Early retirement**
9.1	Conditional
9.1.1	Full
9.1.2	Partial
9.2	Unconditional
9.2.1	Full
9.2.2	Partial
9.A	Adjustment for double counting, category 9
X	Not classified

Category	#Name
1	**Total**
2	**Transfers to individuals**
2.1	Periodic cash payments
2.2	Lump-sum payments
2.3	Reimbursements
2.4	Reduced social contributions
2.5	Reduced taxes
3	**Transfers to employers**
3.1	Periodic cash payments
3.2	Lump-sum payments
3.3	Reimbursements
3.4	Reduced social contributions
3.5	Reduced taxes
4	**Transfers to service providers**

E.4 Abbreviations by country

This table expands on abbreviations used in the intervention names and explanatory notes to the quantitative data on expenditure and participants reported by each country. A more complete list of LMP-related abbreviations for each country may be found in the LMP qualitative reports that are available on the Eurostat website.

Country/Abbreviation	Meaning
Belgium	
ALE	Agence locale pour l'emploi
APE	Aides à la promotion de l'emploi
BCR	Brussels-capital region
CAO 26	Collectieve arbeidsovereenkomst 26
CBO	Centrum voor Begeleiding en Opleiding
CPAS	Centre public d'aide sociale
FBI	Fonds budgétaire interdépartemental
Fed	Federal government
FOREM	Office communautaire et régional de la formation professionnelle et de l'emploi pour la Région wallonne
FR	Flemish region
GC	German-speaking community
ONEM	Office national de l'emploi
PWA	Plaatsellijk Werkgelegenheidagentschap
RVA	Rijksdienst voor Arbeidsvoorziening
VDAB	Vlaamse Dienst voor Arbeid en Beroepsopleiding
WR	Walloon region
Bulgaria	
EA	Employment Agency
Czech Republic	
SÚMP	Spolecensky úcelná pracovní místa
SVC-SÚMP	Samostatná výdelecná cinnost - spolecensky úcelné pracovní místo
VPP	Verejne prospešné práce
Germany	
ABM	Arbeitsbeschaffungsmaßnahmen
AfL	Arbeit für Langzeitarbeitslose
ALG II	Arbeitslosengeld II
Ireland	
BTEA	Back to education allowance
BWEA	Back to work enterprise allowance
FAS	An Foras Aiseanna Saothair (The training and employment authority)
PRSI	Pay related social insurance
VTOS	Vocational training opportunities scheme
Greece	
ESPA	System of protection against unemployment
KEK	Accredited vocational training centres
LAEK	Employment and Vocational Training Fund
OAED	Greek Manpower Employment Organisation
ORP	Operational Regional Programmes
Spain	
C.O	Casas de oficio
E.T	Programa de escuelas-taller
FIP	Formación e inserción profesional
SPEE	Servicio Público de Empleo Estatal (previously INEM)
T.E	Talleres de Empleo

Country/Abbreviation	Meaning
France	
AFPA	Association pour la formation professionnelle des adultes
AFPE/PARE	Actions de formation préalable à l'embauche (Plan d'aide au retour à l'emploi)
AGEFIPH	Association pour la gestion de l'emploi, la formation et l'insertion professionnelle des personnes handicapées
ANPE	Agence nationale pour l'emploi
APEC	Association pour l'emploi de cadres
AREF	Allocation d'aide au retour à l'emploi - formation
CAE	Contrat d'accompagnement dans l'emploi
CAT	Centre d'aide par le travail (pour handicapés)
CATS	Cessation d'activité de certains travailleurs salariés
CAV	Contrat d'avenir
CEC	Contrat emploi consolidé
CES	Contrat emploi solidarité
CIE	Contrat initiative emploi
CIE-PCS	Contrat initiative emploi (Plan de cohésion sociale)
CI-RMA	Contrat d'insertion - Revenu minimum d'activité
CIVIS	Contrat d'insertion dans la vie sociale
CRP	Convention de reclassement personnalisé
FNE	Fonds national de l'emploi
IRILL	Insertion, réinsertion et lutte contre l'illettrisme
PAIO	Permanence d'accueil, d'information et d'orientation
PARE	Plan d'aide au retour à l'emploi
UNEDIC	Union Nationale interprofessionnelle pour l'emploi dans l'industrie et le commerce
Italy	
CIGS	Cassa integrazione guadagni straordinaria
LSU	Lavori socialmente utili
SIL	Servizio d'Informazione sul Lavoro
Lithuania	
EURES	European Employment Services
Luxembourg	
ADEM	Administration de l'emploi
Malta	
ESTS	Extended Skill Training Scheme
ETC	Employment & Training Corporation
INT	Ibda n-Negozju Tieghek
TAS	Technician Apprenticeship Scheme
Netherlands

HOW TO OBTAIN EU PUBLICATIONS

Free publications:

- via EU Bookshop (http://bookshop.europa.eu);
- at the European Union's representations or delegations. You can obtain their contact details on the Internet (http://ec.europa.eu) or by sending a fax to +352 2929-42758.

Priced publications:

- via EU Bookshop (http://bookshop.europa.eu).

Priced subscriptions (e.g. annual series of the *Official Journal of the European Union* and reports of cases before the Court of Justice of the European Union):

- via one of the sales agents of the Publications Office of the European Union (http://publications.europa.eu/others/agents/index_en.htm).

Labour market policy – expenditure and participants

Data 2009

Labour market policy (LMP) statistics provide information on labour market interventions implemented by the EU Member States and Norway. This publication presents data on public expenditure and participants (or beneficiaries) of LMP interventions in 2009. In addition, tables with time series for the year 1998-2009 are included, showing LMP expenditure at constant price levels as well as participant data by age and sex.
