Eurostat is the Statistical Office of the European Communities. Its mission is to provide the European Union with high-quality statistical information. For that purpose, it gathers and analyses figures from the national statistical offices across Europe and provides comparable and harmonised data for the European Union to use in the definition, implementation and analysis of Community policies. Its statistical products and services are also of great value to Europe's business community, professional organisations, academics, librarians, NGOs, the media and citizens.

Eurostat's publications programme consists of several collections:

- **News releases** provide recent information on the Euro-Indicators and on social, economic, regional, agricultural or environmental topics.
- **Statistical books** are larger A4 publications with statistical data and analysis.
- **Pocketbooks** are free of charge publications aiming to give users a set of basic figures on a specific topic.
- **Statistics in focus** provides updated summaries of the main results of surveys, studies and statistical analysis.
- **Data in focus** present the most recent statistics with methodological notes.
- **Methodologies and working papers** are technical publications for statistical experts working in a particular field.

Eurostat publications can be ordered via the EU Bookshop at <http://book-shop.europa.eu>.

All publications are also downloadable free of charge in PDF format from the Eurostat website <http://ec.europa.eu/eurostat>. Furthermore, Eurostat's databases are freely available there, as are tables with the most frequently used and demanded short- and long-term indicators.

Eurostat has set up with the members of the 'European statistical system' (ESS) a network of user support centres which exist in nearly all Member States as well as in some EFTA countries. Their mission is to provide help and guidance to Internet users of European statistical data. Contact details for this support network can be found on Eurostat Internet site.

LIST OF TABLES

	PAGE
Output and Demand	
1 Gross domestic product at current prices in billions of euro/ECU	10
2 Gross Domestic Product per inhabitant in PPS (EU-27=100)	12
3 Annual Gross Domestic Product : volume growth	14
4 Annual private final consumption expenditure	16
5 Annual government final consumption expenditure: volume growth	18
6 Annual gross fixed capital formation: volume growth	20
7 Quarterly Domestic Product: volume growth	22
8 Quarterly private final consumption expenditure	24
9 Quarterly government final consumption expenditure: volume growth	26
10 Quarterly gross fixed capital formation: volume growth	28
11 Gross value added of nace a to b: volume growth	30
12 Gross value added of nace c to e: volume growth	32
13 Gross value added of nace f: volume growth	34
14 Gross value added of nace g to i: volume growth	36
15 Gross value added of nace j to k: volume growth	38
16 Gross value added of nace l to p: volume growth	40
 Income and Saving	
17 Gross national income, % change	42
18 Compensation of employees, % change	44
19 Gross operating surplus and mixed income, % change	46
20 Gross disposable income of households, % change	48
21 Savings as % of gross national disposable income	50
22 Household savings as % of gross household disposable income	52
 Financial Balance Sheets	
23 Financial assets of households as % of gross domestic product	54
24 Financial liabilities of households as % of gross domestic product	56
25 Financial liabilities of non financial corporations as % of gross domestic product	58
 External Transactions	
26 Annual exports: volume growth	60
27 Annual imports: volume growth	62
28 Quarterly exports: volume growth	64
29 Quarterly imports: volume growth	66
30 Annual current account balance as % of gross domestic product	68
31 Annual net Foreign Direct Investment flows as % of gross domestic product	70
 Public Finance	
32 General government revenue as % of gross domestic product	72
33 General government expenditure as % of gross domestic product	74
34 General government deficit (-) or surplus (+) as % of gross domestic product	76
35 General government debt as % of gross domestic product	78
36 Quarterly general government revenue, % change	80
37 Quarterly general government expenditure, % change	82
38 Quarterly government deficit (-) or surplus (+) as % of gross domestic product	84

Prices, Productivity and Labour Cost	
39	Annual harmonized index of consumer prices, % change 86
40	Monthly harmonized index of consumer prices, % change 88
41	Monthly harmonized index of consumer prices excluding unprocessed food and energy, % change 90
42	Labour productivity: gross domestic product in PPS per person employed (EU-27=100) 92
43	Labour productivity per hour worked, % change 94
44	Nominal unit labour cost growth 96
Labour Market	
45	Population in thousand persons 98
46	Employment rate 100
47	Annual employment in thousand persons 102
48	Quarterly employment, % change 104
49	Annual harmonized unemployment rate 106
50	Monthly harmonized unemployment rate 108
51	Youth unemployment rate 110
52	Long term unemployment as a % of total unemployment 112
Money, Exchange Rates and Money Supply	
53	Exchange rates 114
54	Nominal effective exchange rates 116
55	Long-term interest rates 118
56	Short-term interest rates 120

(1) Data refer to annual averages.

(2) The first section of the table refers to countries that adopted the euro after 1999.

(3) Estonia will join the euro area on 1.1.2011; "official rate" for ISK 2009, 2010 and 2011.

f: European Commission forecast

(1) Change in the value of a currency against a trade-weighted basket of currencies (41 countries). A rise in the index (1999=100) means a strengthening of the effective rate. Source: DG ECFIN

(2) For BE and LU data refer to the "Belgo-Luxembourg Economic Union" (BLEU).

(3) The ECB also produces nominal effective exchange rates. The methodology of DGEFIN and the ECB are not fully harmonised.

(1) Central government bond yields with around 10 years' residual maturity. For EU countries the EMU convergence criterion series is shown. Annual averages. Source: ECB and European Commission

(2) The indicator for Luxembourg is based on private bonds with a residual maturity of 10 years.

(3) Estonia does not have long term government debt. For further information see the metadata of Maastricht criterion interest rates.
